

Aluminium Gutter Mesh

15 Year Warranty

Karben Industries warrants that Karben Industries' Aluminium Gutter Mesh is free from defects in material and manufacturing, and once installed correctly, following all industry standards and guidelines, will perform as a screen to limit leaf debris from entering the roof guttering system for a period of fifteen (15) years from the date of installation.

Care must be taken to prevent damage to the coating during shipping and installation. It is also recommended to regularly remove any debris which may collect on top of the mesh or around componentry.

It is important to recognise the installation of Gutterguard does not diminish the obligation to maintain metal roof sheeting or guttering as directed by the manufacturer of each product.

BlueScope® provide several Technical Bulletins relating to the use and care of Colorbond® Steel which need to be observed, including but are not limited to:

Technical Bulletin CTB-8 – Product performance considerations for exterior BlueScope coated steel products
Technical Bulletin TB-4 – Maintenance of Colorbond® steel and Zinalume® steel
Technical Bulletin TB-16 – Fasteners for roofing and walling product selection guide

The validity of any warranty claim is determined by the product's ability to function for its intended use only (gutter protection mesh). If the material fails to be fit for purpose and at Karben Industries' sole discretion, Karben Industries may choose to undertake any of the following remedial actions;

- Repair of the goods
- Replacement of the goods with the same or equivalent product
- Payment of the cost to replace goods

This warranty shall not apply if the failure of the product has been caused by any of the following;

- Storm or other physical damage
- Damage caused by contact with chemicals or incompatible materials
- Any other damage as a result of accident, misuse, abuse or alteration

Karben Industries may refuse a claim in cases where remedial action is taken without Karben Industries' knowledge and consent. In no event shall Karben Industries be liable for any consequential loss or damage of any kind, or any other expenses which may arise in connection with the purchase, installation, repair or replacement of the product.
